

*Embajada de la República de Colombia*

Your Majesty,

It has been an honour and a privilege to have presented the letters of credence as the envoy of the Republic of Colombia to His Majesty Maha Vajiralongkorn.

The Republic of Colombia gives the utmost importance to bilateral relations with the Kingdom of Thailand due to the historical significance of the Kingdom, its economic development, its sound policies, recently evidenced by the successful containment of Covid-19, and the friendliness and character of its people.

The Republic of Colombia looks forward to further develop economic and political relations with Thailand as a very important and relevant partner in Southeast Asia.

On a personal note, throughout my time in Thailand I have developed a great admiration for its institutions and people. During these trying times of a global pandemic, Thais have marked a difference with their discipline and adherence to the principles of social distancing, self-care and their kindness to foreigners visiting this beautiful country.

I am forever grateful for their solidarity with Colombian nationals stranded in Thailand. The Kingdom has indeed set an example to the world.

With respect and appreciation,

Ana María Prieto Abad

Ambassador of the Republic of Colombia
